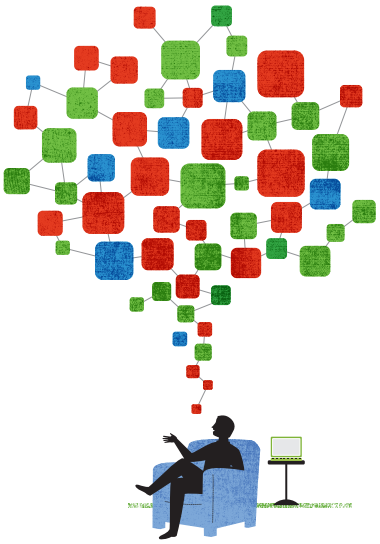
# DRAGON DICTATE FOR MAC

Simply Smarter Speech Recognition

## Meet Dragon® Dictate® for Mac®,

the premier Macintosh® speech recognition solution from Nuance Communications, developer of Dragon® NaturallySpeaking® for the PC and Dragon Dictation for iPhone® and iPad™. Powered by the Dragon speech recognition engine, Dragon Dictate for Mac is like a personal assistant that's always helping you get things done – and all just by talking! Simply speak words and they appear on your screen.



## TURN TALK INTO TEXT

Instead of a keyboard, **use your voice to produce text**. Speak your thoughts; then watch your words appear on screen in your favourite Mac applications – **up to three times faster than typing** – with an astounding recognition accuracy rate of up to 99% right out of the box.

## UNLOCK YOUR CREATIVITY

Dragon Dictate for Mac **keeps up with your brain**. Transform ideas into text at the speed of thought; start being **creative and productive with only your voice** – don't let typing get in the way of your ideas or productivity.

## WORK COMFORTABLY

Control your Mac in a relaxed, **hands-free manner without being tied to your keyboard**. Instead of using your mouse, just speak commands to launch and control applications. Move the cursor or click anywhere on screen simply by voice.

## MULTI-TASK LIKE NEVER BEFORE

Tell your Mac what to do, like "Reply To This Message" or "Open Microsoft® Word" or "Jump To Google™" to **work faster and smarter**. Create voice commands that automate complex workflows on your Mac.

## WORK YOUR WAY

**Create a digital world, powered by your own voice.** Customise Dragon Dictate for Mac with personal vocabulary and voice commands that reflect the kind of work you do.

## BUILT FOR MAC

Dragon Dictate for Mac was built to give you the experience you expect from your favourite Macintosh applications – an **intuitive, easy-to-use** interface that **dramatically boosts productivity**. What's more, Dragon Dictate for Mac works with your favourite Apple® applications, including Mail, iChat®, iCal®, TextEdit, Pages®, Safari® and many more.
